HIGH STYLE

Get the look of high fashion with a smooth, even color consistency and a high-quality finish that has a warm, velvety touch when compared to other laminate and thermofoil products.

SUPERB CONSISTENCY

Eliminating the possibility of wood grain issues and finish variations, giving you a smooth, consistent finish every time.

DURABILITY

Traditional finish quality concerns such as roughness, peeling, cracking and open joints become nonexistent. Plus, effects of light exposure and aging are minimal in comparison to wood finished product and perform above standard requirements in heat resistance testing.

EASY TO CARE FOR

Resistant to moisture as well as stains from common household foods and detergents. Thanks to its smooth surface and durability, SmartShield is very easy to clean and makes an excellent choice for homeowners with pets or young children.

ENVIRONMENTALLY FRIENDLY

The wrap material is a cellulose-based product that is environmentally safe and does not contain any toxic substances. All SmartShield products are Environmental Stewardship Program (ESP) certified and made with materials that meet the California emission (CARB) requirements for formaldehyde.
